Design a poster about litter on the beach

Don’t litter the beach

Dropping litter harms wildlife.
Many animals mistake litter for food, others become trapped in it.
Take responsibility and put your rubbish in a bin!

When you design your poster, don’t forget to include these important things.
What do you want to tell people who will read the poster?
What information do you want to include?
Use bright and bold pictures to catch people’s eye and make them want to read.
Make your messages simple and clear and don’t use too many words.
If you can, include other information such as anti-litter websites you have found.
