The Gatwick Greenspace Partnership was set up in 1994 to help manage the green spaces in our area for the benefit of people and wildlife.

Young or old, taking part in conservation tasks is a great way to enjoy the outdoors, get some regular exercise, meet like minded people and make a satisfying contribution to help conserve the natural environment where you live and work.

We are always keen to work at new sites and talk to new people, so if you want to know how you can get involved or simply want to tell us what you have seen, we would love to hear from you, by phone, email or in person.

The Gatwick Greenspace Partnership works to benefit people, wildlife and the countryside, covering the area between Horsham, Crawley, Horley, Reigate and Dorking. The project is supported by all the local councils and London Gatwick Airport and is managed by the Sussex Wildlife Trust.
