

Sussex
Wildlife Trust

Become a Business Partner with Sussex Wildlife Trust...

Sussex Wildlife Trust believe that corporate charity partnerships should be mutually beneficial and based on shared values and aims.

Becoming a Business Member of Sussex Wildlife Trust is one way to demonstrate your commitment to a healthy and sustainable natural environment.

It's also a positive signal to your staff about the company they work for, and an indication to your

customers, suppliers and the community around you that you care about nature and want to take action to help wildlife in Sussex.

We are interested in developing long term relationships with business members that share our values. We offer a bespoke membership to suit all types and size of business.

See overleaf for Business Membership Benefits and plans...
