Dear Sirs

I write in support of the application for consent to carry out works on Common Land - Iping Common CL100 and Trotton Common CL101

I support this application:

It is a well thought through and sustainable application based on the expertise and experience of a well established conservation organisation (The Sussex Wildlife Trust) drawing upon their experience of the fencing and management of the adjacent Common and Sussex Wildlife Trust Reserve Stedham Common.

It reflects conservation management principles relating to the management of the lowland heathland scarce habitat for which the site is notified as a Site of Special Scientific Interest.

It enables long term management of the site for the primary purpose of nature conservation whilst facilitating the informal recreational use for which the site is valued.

I trust that you will take the above supporting comments into account when determining the application.

Thank you

Ann Griffiths
