Getting around
This 78 hectare reserve is easily reached on foot from Lewes town centre — head east and there is a small entrance in Wheatsheaf Gardens opposite the petrol station, but there is no room to park cars here. Other access points are possible from Mill Road or the lay-by on the Ringmer Road. As there is grazing at different times of the year, there are fences, gates and stiles, and some paths are very steep. The gentlest route to the top is to approach from Mill Road.
