Dear Neighbour,

I am taking part in Nature Street, a project set up by the Sussex Wildlife Trust designed to inspire people to get together with their neighbours to encourage more wildlife into gardens. Hopefully it will help us think about how we can make the most of our outdoor space to help wildlife in our local area.

For example, if we want to encourage more frogs into our street, someone could put in a small pond, a few doors down could build a bog garden. Meanwhile the people next-door, who don’t have much spare garden space, could put in a small pond, a few doors down could build a bog garden. Someone could put in a small pond, a few doors down could build a bog garden.

This is a collaborative project that everyone in the street is welcome to join.
